

FRUITS OF THE PERA DO CAMPO OF BRAZIL (*EUGENIA KLOTZSCHIANA*), S. P. I. No. 37392.

A wild bush, not over 5 feet high, bearing on second-year shoots not 2 feet from the ground several large russet-brown fruits which so scent the air that their presence can be detected many yards away. The melting acid pulp is aromatic and agreeable, and more or less purgative. The bush will probably stand light frosts.
